

Invitation to Nordic market dialogue on zero emission delivery of goods

April 21st 2021 09:00-14:00
Venue: digital meeting

Register here before April 6th if you would like to pitch your solution, and before April 12th to join us!

Agenda:

- Welcome
- Introduction about the project
- Public buyers present procurements
- Companies pitch their solutions
- Lunch
- One-to-one meetings (pre-registered)

Cities are increasingly demanding zero emission solutions for deliveries and city transport. Twelve cities across the Nordic countries invite you to this digital conference where they will present their needs and upcoming procurements, and we invite you to pitch your solutions to the public buyers!

Zero emission vehicles and more innovative and efficient solutions are now increasingly available for city deliveries. During this day we will connect companies with the solutions with the big buyers in the Nordics!
